Fund objective

The Fund primarily invests direct or indirect in asset-backed securities listed in euros or converted to euros, distributed over different issuers, collaterals, sectors and countries. The Fund invests primarily in RMBS (Residential Mortgage Backed Securities), CMBS (Commercial Mortgage Backed Securities), Consumer Loans, Car Loans, Credit Card Ioans, Whole Business (repackaging of companies / company divisions) and other assetbacked securities. The investment process is focused on the addition of value by means of an active selection policy for issuers, collaterals, sectors and countries.

The cumulative performance is based on total return data excluding management, service and entry or exit fees.

The service fee is inversely scaled related to the fund size. The maximum applicable service fee is presented.

Aegon Asset Management applies partial ADL (Anti-Dilution Levy) which implies that the NAV of a fund is adjusted with the exit or entry fee only if the net cash flow exceeds a pre-determined limit.

The cost of investing will impact your investment. The return will be reduced by the fees and expenses that may be incurred in managing the investment. Fees may have a compounding effect.

² Securities lending contributes to the performance of the Fund. The Fund receives 72% of the total proceeds from securities lending. The costs for providing and conducting the securities lending program are charged by Aegon Asset Management and partners and are already deducted from these proceeds. These proceeds are an estimation. The exact amount is known three weeks after month end.

³ Source: Aegon Asset Management. Ongoing charges based on actual expenses over the year 2023.
